DEDUCTIBLES AND YOUR PLAN

Your plan includes a deductible.

A deductible health plan is designed to help keep premium costs low. Your plan includes a deductible that must be met before your insurance pays towards medical services. The deductible applies to all medical care (including diabetic drugs and supplies), but does not apply to Preventive Care services* or prescription drugs. After your deductible is met, you will pay a coinsurance for most medical services.

PRESCRIPTION DRUGS AND YOUR PLAN

You can get a prescription filled at the copay or coinsurance level on the first day your coverage begins.

OTHER THINGS TO KNOW ABOUT YOUR PLAN

1

How does the money I pay toward my deductible add up (or aggregate)?

The entire family's annual deductible must be met by one or any combination of covered members before a copay or coinsurance is applied for any family member.

2

How much will I pay out-of-pocket for this plan? And how does it add up (or aggregate)?

- To help limit your out-of-pocket costs, all of our plans have a maximum amount that any one person will pay. This is called an out-of-pocket maximum.
- This amount varies, depending on which plan you have. Log into ExcellusBCBS.com/Member to view your benefits and learn what your amount is.
- The entire family's annual out-of-pocket maximum must be met by one or any combination of covered members. Once that amount is reached, care is covered in full.
- Any individual will not pay more than \$6,650.

IMPORTANT TERMS

Deductible

An amount of money you have to pay before the health insurance company will make any payment toward your health care services. For example: If you have a \$500 deductible, you pay 100% of your first \$500 in medical bills. After you reach your deductible amount, you may pay a portion of your health care costs and your health insurance company will pay the rest.

Coinsurance

Coinsurance is similar to a copay, but instead of a fixed-dollar amount, you pay a percentage of the total bill. For example: You need crutches, and your bill is \$100. If your coinsurance is 15%, that means you pay \$15 and the insurance company pays the remaining \$85.

Out-of-Pocket Maximum

An annual limit on the amount of money that you pay for health care services, not including your monthly premiums.
